Private Equity firms and portfolio company CEOs often neglect investments in branding and marketing, viewing them as discretionary expenses. And valuation research tells a different story:

“Branding can attribute as much as 20% of Market Capitalization for Capital Goods Manufacturers.”

Kantar-Milward Brown (2019)

The MVP PortcoProSM program offers PE firms and their portcos an affordable and demonstrated Digital Brand Transformation approach to achieving increases in Marketing Return on Investment (MROI) and future EBITDA and Exit Value multiples.

How MVP Optimizes Portfolio Company Brands

MVP expertly leverages marketing strategy, website design and development, content development and a variety of digital tools, such as such as SEO, PPC and Inbound marketing to bring your portco’s brand to life while generating digital transformation results:

MARKETING & BRAND STRATEGY

The MVP BrandMateSM process delivers the strategic, verbal and visual scaffolding that provides a road map to success and energizes your portco to make the journey

WEBSITE DESIGN & DEVELOPMENT

Specializing in award-winning custom branded and eCommerce WordPress websites, integrated business process applications and third-party integrations, we bring new life — and generate increases in Google rankings, leads and revenues — to B2B and B2C products and services brands

CREATIVE & CONTENT DEVELOPMENT SERVICES

Copywriting, Photography and Videography help make a tangible difference in the way in which customers perceive, interact and respond to your brand messaging

SEARCH ENGINE OPTIMIZATION & MARKETING

From Organic SEO to Google Ads (PPC), MVP has demonstrated success for both national brand CPG manufacturers and B2B products and services companies

INBOUND MARKETING

If your portco has a complex and costly product or service with a long sales cycle, our experience with HubSpotSM and Pardot by SalesforceSM enables us to create, promote, track and measure lead-generating content marketing campaigns — and we’ve achieved as much as **10X** and **4X** increases in leads and sales for both a prominent EdTech and industrial products manufacturing company, respectively. See back of page for details.
